

Dear Google:

My Google+ profile is suspended ([link below](#)). Long story short – I Have a YouTube account. (YouTube.com/LMSJR) – which reflects the initials of my full name, created over 5 years ago before my brand existed!. I learned that you can change the name of YouTube by linking to Google+, so I did it. Now – all of my videos read as ‘The Tone King’ versus LMSJR. However, in the process, I learned that Google+ Profiles have to be a real name, which is EXACTLY what I was trying to get away from and which is why I wanted to link to Google+ (to get away from my [real name](#)), so I created a Google+ Page as ‘The Tone King’ and linked to that, instead of my Profile.

BUT here is the problem: I don’t want my profile or anything public to have my real name as it is irrelevant to what I do – as the public only knows me as ‘The Tone King’. I am hesitant to delete my Google+ Profile as its linked to everything I am connected to (Feedburner, AdSense, Adwords and YouTube). So – how can I get away from my Google+ Profile and keep only my Google+ Page without losing any information to any of my linked accounts via info@TheToneKing.com? Can you PLEASE advise me on this? (pretty please!). I want to be in compliance, but I don’t want my videos to go by my real name – I want them to go by the brand name (The Tone King). Therefore, I am okay with having a Google+ Page instead of a Profile. I’m just not sure how to do it, and right now my Account is Suspended. Again - how do I delete my Google+ Profile (or mark it private if it’s required – since it has to include my real name) and keep my Google+ Page as ‘The Tone King’, without affecting any of my other accounts?

Lastly -please understand – I have over 1000 videos on YouTube and put a ton of time and energy into giving back to the guitar community. I don’t want anything to be banned, and I don’t want to be in violation of any terms of service. So I’m really looking for some guidance. And – just so you know, I have taken every step to maintain legitimacy in everything I do. ‘The Tone King’ is registered in the State of New Jersey. My checks & bank account all say ‘The Tone King’ and my U.S. Government issued P.O. Box is registered as ‘The Tone King’. I am not sure how or why I am having a problem with Google. Can you please help?

By the way – as reference - I found your name & info from this link:

BTW – since I’m writing to you, I may as well mention that I have had 2 other issues that have gone completely unresolved. I’ve used the Google Support forums – and those items are still outstanding. Getting Support is very frustrating! Here are those 2 outstanding issues, that even your top moderators were unable to assist with:

TITLE: Oldest to Newest is NOT showing the oldest video

https://productforums.google.com/forum/#!msg/youtube/fSKv5gE7e6k/0Ux_DNOuhjEJ

TITLE: This video requires payment to view

And – for what it’s worth – I may as well mention 1 last thing. When you LINK to Facebook – you are only able to LINK to a Facebook Profile, NOT a Facebook page. This is a bug and I can replicate it for you!
